

## The next generation of high-acuity virtual care

Collette Health's continuous clinical surveillance system combines virtual monitoring, virtual clinician observers, and analytics.

### This solution helps clinicians:

- ▶ Proactively respond to high-acuity patient needs
- ▶ Positively impact patient experience scores
- ▶ Offset high-acuity costs

Today over 100 hospitals and health systems trust Collette Health's cloud-based video surveillance software.

*"I truly cannot imagine a better experience. Our patients are safe, our clinicians are happier, and everything is fully rolled out. It was incredible to see it all come together and we are so happy to be using Collette Health!"*

— KRISTIN BRANDT, Clinical Project Lead at CentraCare

# 30%↓

On average, Collette Health clients see a 30% drop in patient fall rates.
